5. (Secret - JGO) Met with Representative William Bates, who advised that he would like to be brought up-to-date on the subject matter of the NBC news report concerning Israeli development of atomic weapons. He recalled the briefing provided by the Director to the Joint Committee and asked if we have anything additional to add at this time. I briefed Mr. Bates concerning the possibility of a Soviet manned earth satellite test and another Venus probe.

I discussed various matters of Committee organization with Mr. Bates who advised that the overall number of the members of the Committee will be decreased from 40 to 37 members giving him two new Republicans and Chairman Rivers two new Democrats. This will result in a breakdown of 21 Democrats and 16 Republicans in the Committee.

Mr. Bates advised that he has a relatively new man on his staff, former Navy Captain Bill Hogan. At least for the present, he does not require any clearances on Captain Hogan. Although Mr. Bates intends to use Captain Hogan on some Committee work, he does not intend to use him on Agency classified matters at the present.
